

Forrest Anderson Plumbing & AC President, Audrey Monell, is putting on a free workshop for young women to teach them about great opportunities in the plumbing and HVAC industries.

Women make up just 1.5% of plumbers, yet there is a huge demand right now for workers. Forrest Anderson is hosting a free, one-day workshop to explain the opportunities available to young women in this traditionally male-dominated field including apprenticeships, classes and on the job training in related fields. Participants will also get hands-on instruction for basic plumbing repairs which will save them time and money no matter which career they choose to pursue.

Women in Industry Workshop – April 28, 2018

This **free**, one-day program is an introduction for young women ages 16-24 looking for a rewarding opportunity in this rapidly growing field that is in need of workers.

Saturday, April 28, 2018 10am – 2pm
Farnsworth Wholesale Company
3830 E Wier Avenue, Phoenix AZ 85040
40th St. & Broadway

Doors open at 9:30 AM and we'll begin promptly at 10 with an opening presentation by Audrey Monell, President of Forrest Anderson Plumbing & Air Conditioning. Top female trainers from the industry will be on site to help you understand the industry and requirements for a successful career in plumbing and HVAC.

You will also learn important skills with hands-on activities:

- Plumbing repair including toilets, sinks and faucets
- Pipe assembly including fitting pipes and hookups
- Thermostat install and setting

Plus you'll get a free lunch and be entered into a raffle drawing!

Bring a friend and you'll each get two raffle tickets!

Registration is open at this website:
